

# Computer Repairs – 24/7 Call Outs | Computer Emergency

24 Hour Computer Repairs Brisbane

## Computer Repairs

We provide [Computer Repairs Brisbane](#), 24 hour hours per day, 7 days per week. You never know when your computer will crash.

The last thing you want to do is pack up your computer, take it to a computer store and wait for a repair. We come to you. We can be on your doorstep in under 30 minutes. Most repairs are done in 60 minutes.

## Mobile Computer Repairs

We provide [mobile computer repairs](#) – We come to you! Our mobile workshop contains all the tools we need to fix most problems including [virus removal](#), [spyware removal](#) and [crashed hard drives](#). We can also carry general hardware for [computer upgrades](#) to boost speed and performance. If we don't have it on us we can get it within 30 minutes from our local Brisbane & Sydney wholesalers. This service is available for all 24 Hour Computer Repairs .

## Remote Computer Repairs

With advancements in technology we can now repair your computer via the internet. This is called “remote access”. Computer Emergency offers remote support which is perfect tool for fixing small problems and providing training. This is the perfect solution if you are out of the service area and have a good internet connection. We simply connect to your computer and fix your problems. You can watch as we do the work!

## Setting Up A Network

Setting up your home or business network can be stressful. We can securely set up your server, computer, printer, modem, NAS, or any other IT or AV device!

Our physical and software precautions will secure your devices and websites to help stop intruders from gaining access to your important files.

## **Regular Servicing**

Is your computer running slow? Does it overheat? For your computer to run at its best it needs to be serviced regularly, much like a car. You'd be surprised how much dust collects on the cooling fins of your processor and surfaces in such a short period of time. If you leave your computer running constantly, placed on the floor or you have pets, you usually need cleaning a little more often. We have tools for thorough cleaning and maintenance.

## **Pick Up & Drop Off**

If you're short on time we can pick your computer or device up, repair it in our workshop and return it to you. This is our preferred method for laptop screen repairs and mobile phone repairs that require special parts.

## **Should I Repair Or Replace My Computer?**

Computer Repairs and laptop repairs are fast, cheap and effective. Don't let a sales person talk you into buying a whole new computer if it's not necessary.

Our computer repair service not only fixes your primary computer problem but we also focus on giving your system a complete checkup and service at no extra charge. We want your computer running at its best.

We have direct access to a massive range of stock which means you get your computer back fast.
